Evan "Greeble" Lake Today at 1:05 AM

Hi! I'm Lake (He/They), I'm a senior CSGD major. I'm really into TTRPGs and board games. I've got decent experience in C, C++, and C# (I've also done some relevant webdev stuff but it's been years).

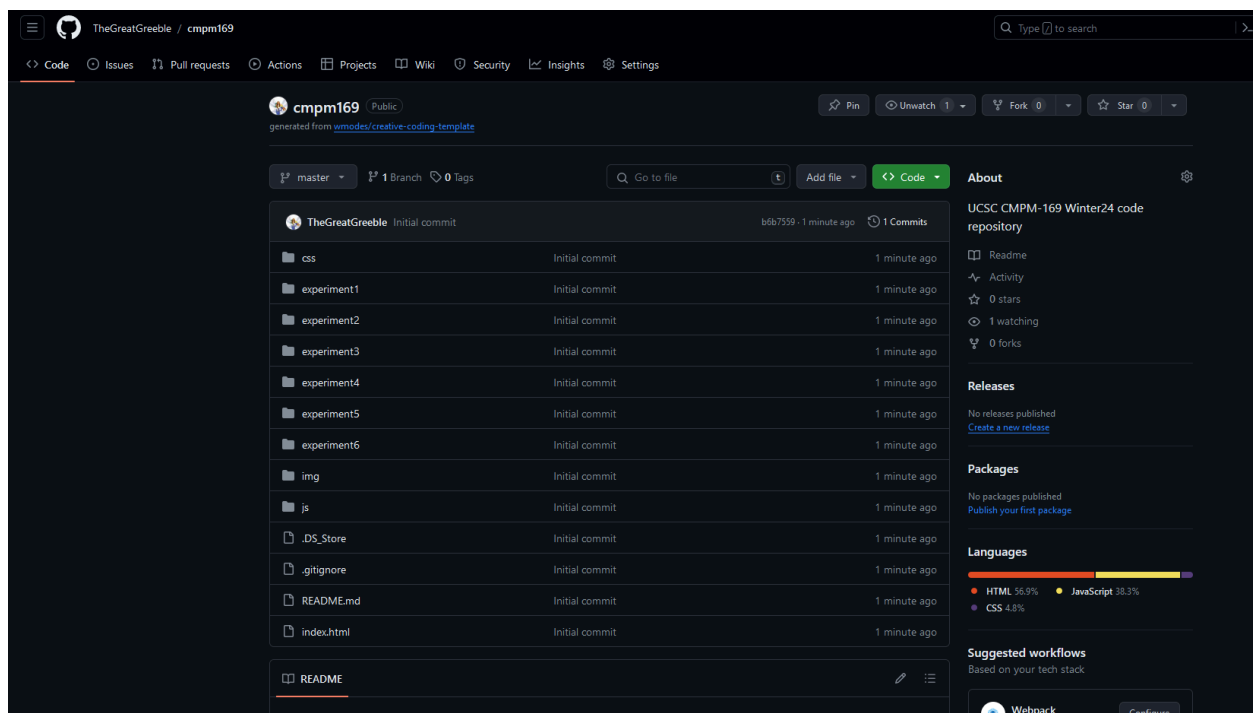

## Task 3: Read the Experiment Submission Requirements

I observed the words through eyeballs, interpreted with brain. However, unsure if observed reality exists or is a mere illusion, extracurricular experimentation is required.

## Task 4: Install Software

I already had all the relevant software installed.

## Task 5: Create Your Own Class Repo

## Task 6: Self-Evaluation Rubric

Self Evaluation Rubric						
Did you complete the assignment and did you complete it on time?	Submitted on time	Up to 1 day late	Up to 2 days late	Up to 3 days late	4 days late or more	Do you need to clarify? No, not really.
	✓	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Did you put in earnest effort and provide an articulate summary of your experience?	Excellent	Pretty good	About average	Could be improved	Not this time	What supports this? I'm still determining if we are simply living in Plato's allegory of the cave, but I'm pretty sure I got everything in.
	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Was the assignment complete, with minimal errors, correct output, and good style?	Excellent	Pretty good	About average	Could be improved	Not this time	What supports this? I have excellent style.
	✓	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
How much creativity and EXTRA effort did you put into the assignment?	Excellent	Pretty good	About average	Could be improved	Not this time	What supports this? I questioned my own existence in ways only possible at 2 am.
	✓	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Reflection in section above.</b> Not only did I set up my system and prepare myself for the class in the ways required, but I've decided to at least assume that reality is as it seems, as there would be no truly distinguishing factors between a simulation and real life, from my perspective, to determine an exact answer. I think therefore I am, and that is enough.
